Julie's Bicycle is a pioneering non-profit organisation, mobilising the arts and culture internationally to meet the climate and ecological crisis head-on.

It will include a panel with key international stakeholders at the intersection of climate and culture.

The event will inform the final published findings which will be presented during an online event on the 25th of October and during the COP26 Summit in Scotland this November.

We would be honoured if you were able to attend and look forward to your response.

Yours sincerely,

Alison Tickell
